

**Grajski
vinograd**
Castle Vineyard

Ljubljanski grad je v letu, ko se Ljubljana ponaša z nazivom Zelena prestolnica Evrope 2016, dobil mestno posebnost, kot jo imajo nekatere druge prestolnice – grajski vinograd, ki se razteza na južnem pobočju Grajskega hriba. Vinograd je v celoti posajen s 1050 trtami rdečegrajca in belpina in utrjuje naziv, s katerim se tudi ponaša Ljubljana, naziv »Mesto trte in vina« ter zaokrožuje dosedanjo vinsko zgodbo ob dogodkih, povezanih s potomko stare trte z Lenta, ki raste na grajskem dvorišču.

In the year that the Slovenian capital boasted the title Ljubljana, European Green Capital 2016, the Ljubljana Castle gained a city specialty, just like many other capitals – the Castle Vineyard that stretches on the Southern slope of the Castle Hill. The Castle Vineyard is completely planted with 1050 vines of »rdečegrajc« and »belpin«, thus strengthening the proud naming of Ljubljana as »the city of wine«, as well as complementing the existing wine story at events associated with the offspring of the oldest grapevine from Lent in Maribor, which grows in the Castle Courtyard.

Pokroviteljstvo nad trtami grajskega vinograda na Ljubljanskem gradu / Sponsorship of the vines of the Castle Vineyard at the Ljubljana Castle
